

STATEMENT OF COMPLIANCE—RESTRICTION OF HAZARDOUS SUBSTANCES (ROHS 3)

Statement of Compliance—Directive 2015/863/EU, Restriction of Hazardous Substances (RoHS 3)

The Opto 22 products listed in the table on the following pages are compliant with Directive 2015/863/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 04 June 2015 (RoHS 3) on the restriction of the use of certain hazardous substances in electrical and electronic equipment, as of the part's Compliant Manufacturing Date (shown in the table). When a Compliant Manufacturing Date is not listed for a product, a code printed on the part itself indicates whether the part complies with the substance restrictions of the RoHS 3 directive. For details, see [page 9](#).

The part(s) do not exceed the maximum concentrations of 0.1% by weight in homogeneous materials for:

- Cadmium(Cd): 0.01%
- Mercury: 0.1%
- Lead(Pb) : 0.1%
- Hexavalent chromium (Cr6+) : 0.1%
- Polybrominated biphenyls (PBB): 0.1 %;
- Polybrominated diphenyl ethers (PBDE): 0.1 %
- Bis(2-Ethylhexyl) phthalate (DEHP): 0.1%
- Benzyl butyl phthalate (BBP): 0.1%
- Dibutyl phthalate (DBP): 0.1%
- Diisobutyl phthalate (DIBP): 0.1%

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. This information does not in any way modify existing purchase specifications or existing contractual or other agreement terms between Opto 22 and its customers.

Since conditions of use are outside our control, Opto 22 makes no warranties, express or implied, and assumes no liability in connection with any use of this information.

Date: November 18, 2021

Mark Engman

Chief Executive Officer, Opto 22

TABLE OF PART NUMBERS AND COMPLIANT MANUFACTURING DATES

For instructions to tell if your device complies with the substance restrictions of the RoHS 3 directive, see [page 9](#).

DOES MY DEVICE COMPLY WITH THE ROHS 3 DIRECTIVE?

Use the manufacturing codes on Opto 22 devices to determine if your device complies with the substance restrictions of the RoHS 2 directive.

On some products, the manufacturing codes are printed on a white label. On others, the manufacturing codes are printed in ink.

1. Your device is compliant if **ROHS** is printed with the manufacturing codes.

If not, continue to step 2.

2. If ROHS is not printed with the manufacturing codes on your device, then use the appropriate method (a, b, or c) to find the code that designates the device as compliant with the RoHS 3 directive.

- a. 10-character code (for example, AA999999AA).

Your device is compliant if the **first two characters are AG**.

- b. Manufacturing date code (the month and year (MM/YY or MMY) that the device was manufactured).
In the table starting on [page 2](#), find your device's part number and Compliant Manufacturing Date.

Your device is compliant if it was manufactured **on or after the Compliant Manufacturing Date**.

- c. No manufacturing codes *and* in the Table of Part Numbers and Compliant Manufacturing Dates.
Some parts (such as fuses, clips, and safety covers) aren't marked with manufacturing codes.

Your device is compliant if it **has no manufacturing codes and it is listed in the Table of Part Numbers and Compliant Manufacturing Dates** (starting on [page 2](#)).
